63 Where We Have Worked
Newby Leisure is a complete playground design company based in Lincolnshire. With over 25 years of experience in the industry, catering for schools/nurseries/colleges/community play needs, and more. We offer a bespoke, fully inclusive service from planning and design, to installation and aftercare maintenance.

We understand what’s important for your needs as we endeavour to complete any play area installation, big or small.

Our experienced design team will help transform your vision into reality. Assisting you with choices of equipment, compliance with regulations, and how to make the most of your budget, we aim to inspire children’s imaginations, not only enhancing their playtime but developing their learning and physical abilities too.

Newby Leisure’s DBS checked and skilled construction team includes joiners, landscapers, surface finishers, and fencers, resulting in a project that is completed in the safest of hands.

For more information on how we could help bring your playground plans to life please call 01472 230022 or email: sales@newbyleisure.com.

All site visits are free and we offer a no-obligation quotation!
1000's of happy children
Sustainable pressure-treated timber
Award winning resources
10 year timber guarantees
1000's of playground designs
Creators of innovative play resources
Why Newby Leisure?

Here’s why you should choose Newby:

Newby Leisure understands what’s important for your outdoor education needs as we endeavour to complete any play area installation, big or small.

As a family run business, playgrounds are our passion. We wish to inspire children to play more, learn everyday and stimulate their imaginations.

Contact us:

Our offices are open from 8:00 am – 4:30 pm Monday – Friday.

Email: sales@newbyleisure.com

5 year guarantee on groundwork
10 year timber guarantees
2 year guarantee on all natural products
25 years of playground design experience
No obligation quotation and FREE site visit

All Newby Leisure site visits are FREE and quotations are no obligation.

We’ll visit you to discuss your play scheme plans, have a look at the site and offer a FREE quotation.

If you like the idea we propose, our design experts will create your unique plans and present them to you, helping you to visualise your project in more detail.
All Newby Leisure design plans are created in-house by our specialist design team.

We concentrate on all the fine details to make sure your playground is exactly to the specifications you’re looking for.

Lead by a team with fantastic design experience, our illustrations department has a keen eye for detail.

That’s why all of our designs are completely unique and exciting.

After many years of research and feedback from schools and teachers, we find that hand-drawn designs resonate better with our customers rather than CAD-generated designs.

This style also suits the ethos of Newby Leisure with our natural playground design projects.

You will receive one of these fabulous illustrations with any quotation.
Newby Leisure offers a large variety of physical play equipment and apparatus.

Including adventure trails, clamber stacks, clamber trees, bespoke climbing units, and prism, there are options for all schools and budgets.

With a specialist trades team too, we can create lots of fun and exciting physical play resources tailored to your exact needs.

Plus, all physical play equipment is approved by our ROSPA trained inspection team for peace of mind.
Natural and sensory play is a key element to all Newby Leisure playground designs.

Incorporating the two into our schemes really resonates with children to fulfil playtime and outdoor education development.

We offer many natural and sensory options to consider which our team would be more than happy to advise you on.

This includes; planters, surfacing, pergolas, trees, shelters, sandpits, and more.
Water Play is both enjoyable and educational.

Helping children develop eye-hand coordination and math and science concepts, Newby Leisure offers a wide range of water play features for schools and nurseries.

Enhancing social skills and encouraging social cooperation, water play is used all year round by teachers to help develop a child’s education. Our range of water play products ranges from freestanding units with funnels and pipes to bespoke streams and sandpits.
Messy Play

Newby Leisure understand the importance of Messy Play amongst early years and primary education - it’s great for all-around development!

Many studies have shown that messy play is one of the most effective ways for young children to learn and develop physically, mentally, and emotionally.

Messy play encourages children to learn about raw materials and the outdoor environment in an unrestricted and creative way, and we love to encourage that in our outdoor playground projects.
Sand Play

Sand play promotes physical development.

Newby Leisure design and install many different sandpits of various sizes and styles. We have created many wonderful bespoke sandpits at a variety of schools, each with a unique twist.

Children love to play in the sand, especially in large groups. That’s why our bespoke options are perfect for school play areas.

Sand play is essential for developing large muscle skills as children dig, pour, sift and scoop.
School nature areas breathe new life into your playground or outdoor space all year round. Newby Leisure has had the pleasure of installing many beautiful nature areas at schools all across the country.

Outside in a natural environment, these areas offer children the chance to socialise and engage with classmates, whilst learning about the environment they play in.

Perfect for incorporating planters, flowers beds, bug hotels, and much more, they finish off an outdoor play area perfectly.
Newby Leisure’s Caves and Streams are eye-catching and imaginative.

CAVES

Children will engage in these areas for hours to develop their social abilities. An attractive feature, play caves are great to crawl into for reading, resting, and role-play activities. Allow a child’s imagination to come to life when they create their own play scenarios and develop social skills.

STREAMS

Our play streams look fantastic in any playground setting. Offering a tranquil area to relax and read, streams also attract children for water play activities too. Designed with longevity in mind, they are brilliant for playtime.
Construction Play

Construction play - it’s time to build!

Construction play is all about shaping, building, and manipulating objects to create new and exciting structures. It offers learning opportunities for children of all ages.

It is particularly beneficial for early years because they learn to work towards a goal individually and as a group. Construction play allows them to explore their imagination and execute it in the real world.
Haltwhistle is the home of outdoor adventures!

A lot of heart and soul has been poured into this phenomenal, natural play scheme.

Counted into this design is an array of bespoke features and timber play resources, built to inspire more outdoor play.

Initially, this space started as a completely blank canvas. Unquestionably, it has been totally transformed to an incredible standard!
Natural play was taken to a whole new level for the pupils at St. Nicholas CE Primary Academy, Boston.

The Newby Leisure team has certainly added their sparkle to this playground.

It is fun-packed, educational, and fantastic for children to socialise with friends. A variety of timber play resources have been installed to create a play area that encourages physical and imaginative play, leading to countless learning opportunities!
This playground has everything a child could dream of!

Never-ending fun will always await the children at Wybourn Community Primary and Nursery School.

Newby Leisure has transformed the way children play by creating a natural and educational play environment. This creative play space has elements to cover all aspects of play, learning, and outdoor education.

Children can enjoy a variety of play situations from sensory play to water play, physical play, and messy play.
Natural play is now at the heart of Laude San Pedro International College, Malaga with this fabulous playground design.

A free-flowing space, the site is a safe play zone for early years and primary education. By incorporating elements of play to develop upper and lower body strength, fine motor skills, and agility our team covered lots of educational aspects which allows children to enjoy the benefits of being outdoors whilst learning through play.

Taking into consideration the climate in Malaga, our treated timbers were carefully selected to offer maximum robustness and sustainability.
The all-new, natural playground renovation features a never-ending fun space for the children of The Green Way Academy to play.

Inclusive of messy, construction, natural, imaginative, creative and role play, the teachers at this East Yorkshire school can take school lessons outdoors, all year round and watch as the children learn through play.
Newby Leisure was very pleased to undertake our first overseas playground design project at The British School of Barcelona, Spain. Having been chosen by the Cognita Schools partnership (a global leader in independent education), we revamped the outdoor play area at The British School of Barcelona Castelldefels to deliver another project we are extremely proud of. A company first in terms of working outside the UK, the project offered new challenges in operations, all of which the company relished.
View more case studies online at newbyleisure.com
If you love a natural playground design, this is the scheme for you!

Newby Leisure co-designed this natural play environment alongside the staff of Kids Planet, with the target of enhancing outdoor play in mind. Incorporating different kinds of play into the scheme, it offers children the opportunity to experience contrasting sensory values.

By doing so, children can develop fine and gross motor skills as well as discover independence and positive self-esteem!
Together, Newby Leisure and the staff of Hawthorn Tree, designed and created a natural, outdoor play area for children to enjoy at playtime.

Including a water play stream and cobble beach as the focal feature, toddlers will spend hours engaging in social play and developing gross and fine motor skills in their brand-new playground.
Shelters & Storage

OUTDOOR CLASSROOMS

An outdoor classroom provides a permanent space for lessons and role-playing activities. Outdoor lessons can be fulfilled without leaving school grounds and can be integrated into the school curriculum any time of year.

All our classrooms are manufactured to the highest standard, in-house, and can be completed with seating and detachable, heavy-duty PVC covers.

Newby Leisure design and install outdoor classrooms in various shapes and sizes, according to your budget and needs.
Newby Leisure can design supply and install any type and size of Shed or Storage/Play structure you may require.
All schools have varied outdoor areas. Therefore, we receive many different requests for bespoke shelters in all shapes and sizes.

From Nash Shelters to Heavy-Duty PVC Cover Shelters, Newby Leisure can make them all.

Our many years of playground design experience allows us to recommend shelters that will be the right fit for many years to come.

Great company & amazing quality products, highly recommend! My daughter loves her play & paint window, easy to assemble, amazing customer service & fast delivery! Thank you.

Zoe Booth

Could I take this opportunity to thank you very much for the work you have done at our school. We are delighted with the outcome and really impressed with how hard the team worked, how they interacted with the children who were interested in what they were doing, and the quality of their work. They did everything to ensure we were happy at every stage and nothing was too much trouble. We would not hesitate to use the company again.

Harrowby Infant School

I want to say that you get a fair product(s) for a fair price but, the truth is, you get given a really good deal. The equipment is unbelievable and of the highest quality and there is no one better at turning the picture you have in your head into a creative reality. With their first-class workmanship, Newby Leisure Limited really care about the work they do and we couldn’t be more pleased. There is a real buzz of excitement around our school now.

Millfield L.E.A.D Academy Leicester

@NewbyLeisureLtd are the ONLY company in the entire UK that you need to know the names of! When it comes to children, outdoor provision & learning through play, there isn’t any place better! #ChooseNewby
