Outdoor CLASSROOMS

INSTALLATION

Outdoor Classroom Installation

From £3,995.00

An outdoor classroom provides a permanent space for lessons and role-play activities. Outdoor lessons can be fulfilled without leaving school grounds and can be integrated into the school curriculum any time of year.

Although, the Outdoor Classroom is ideal for the summer months – providing children with a comfortable and cool environment to work in. All our classrooms are manufactured to the highest standard, in-house and can be completed with seating and detachable, heavy-duty PVC covers. We also cater for bespoke needs, fitting outdoor classrooms in difficult sized areas.

Newby Leisure design and install outdoor classrooms in various shapes and sizes, according to your budget and needs. Built on-site, we design and build exactly to your specification and curriculum needs. All our products are designed and built in-house by our skilled team of joiners – to the very highest quality!

All Newby Leisure products are built to last. We use FSC Pressure Treated Redwood Timber which has a 10-year guarantee against wood rot and insect damage.

Get your very own today by calling or emailing our friendly team.

Outdoor **COLOURED** **SHELTERS**

School Coloured Role Play Shelters.

Add a splash of colour to your school play area with Newby Leisure's Outdoor Coloured Shelters. These Coloured Shelters are perfect for role play and teaching outdoors. Complete with a polycarbonate Lexan roof, our shelters offer a point of difference to any playground. Children can use the shelter to act out plays, be taught outside or as a quiet reading area for small groups. It's perfect for all-year-round use too! This product is built to last and made from FSC Pressure Treated Redwood Timber.

The Benefits of **LEARNING OUTDOORS**

Outdoor play offers freedom both physically and mentally! Newby Leisure design, manufacture, supply and install playgrounds and playground equipment to make outdoor play educational and most importantly fun! As summer approaches, the urge to play outdoors is ever more prevalent - and for good reason! Outdoor play allows children to freely express themselves without the limited constraints of an indoor classroom. Learning outdoors allows early years to explore, run, jump, create and shout to their heart's content.

Learning outdoors teaches children about their natural environment. They experience all weathers and an array of wildlife in their natural habitat. Children must have the opportunity to spend time outdoors so that they can learn about different habitats and lifecycles. The more time they spend outdoors the more they will feel comfortable and have a good understanding of their natural environment. Early exposure to the outdoors may encourage an interest in outdoor hobbies, later on in life. Hobbies such as gardening, hiking, camping and backpacking.

Newby Leisures Bespoke Classroom with PVC cover - Designed for extra protection against the elements. This Outdoor Classroom is perfect all year round.

Say goodbye to hot stuffy classrooms during summer! This Bespoke Outdoor Classroom allows children to be educated comfortably outdoors. This open layout provides a cooling breeze during those hot summer months.
