Meet the Directors

Neil Newby

Company Director

Neil's vision for the company grew from observations of limited play spaces to aid child growth and social engagement. His idea was to make play areas more fun and fulfilling with a goal of nurturing and developing outdoor education.

Alastair Newby

Company Director

Alastair shares Neil's vision for the company. With a passion for all things natural playground design and outdoor education, Alastair champions outdoor play and has a wealth of industry knowledge allowing him to make exciting and engaging playgrounds for outdoor settings.

100 Where We Have Worked

Playground Design

Newby Leisure is a complete playground design company based in Lincolnshire. With over 25 years of experience in the industry, catering for schools/nurseries/colleges/community play needs, and more, we offer a bespoke, fully inclusive service from planning and design, to installation and aftercare maintenance.

We understand what's important for your needs as we endeavour to complete any play area installation, big or small.

Our experienced design team will help transform your vision into reality. Assisting you with choices of equipment, compliance with regulations, and how to make the most of your budget, we aim to inspire children's imaginations, not only enhancing their playtime but developing their learning and physical abilities too.

Newby Leisure's DBS checked and skilled construction team includes joiners, landscapers, surface finishers, and fencers, resulting in a project that is completed in the safest of hands.

For more information on how we could help bring your playground plans to life please call 01472 230022 or email: sales@newbyleisure.com.

All site visits are free and we offer a no-obligation quotation!

Creative Design

In-house design

All Newby Leisure design plans are created in-house by our specialist design team.

We concentrate on all the fine details to make sure your playground is exactly to the specifications you're looking for.

Led by a team with fantastic design experience, our illustrations department has a keen eye for detail.

That's why all of our designs are completely unique and exciting.

After many years of research and feedback from schools and teachers, we find that hand-drawn designs resonate better with our customers rather than CAD-generated designs.

This style also suits the ethos of Newby Leisure with our natural playground design projects.

Hand-drawn Illustrations

All Newby Leisure playground schemes are hand-drawn.

In fitting with our natural ethos, all customers will receive a free hand-drawn design with all no-obligation quotations. And yes, you guessed it, all site visits are free too!

Our expert design team will create a wonderful bespoke illustration for your school and send it to you for approval.

Physical Play

Newby Leisure offers a large variety of physical play equipment and apparatus.

Including; adventure trails, clamber stacks, clamber trees, bespoke climbing units, and prisms, there are options for all schools and budgets.

With a specialist trade team too, we can create lots of fun and exciting physical play resources tailored to your exact needs.

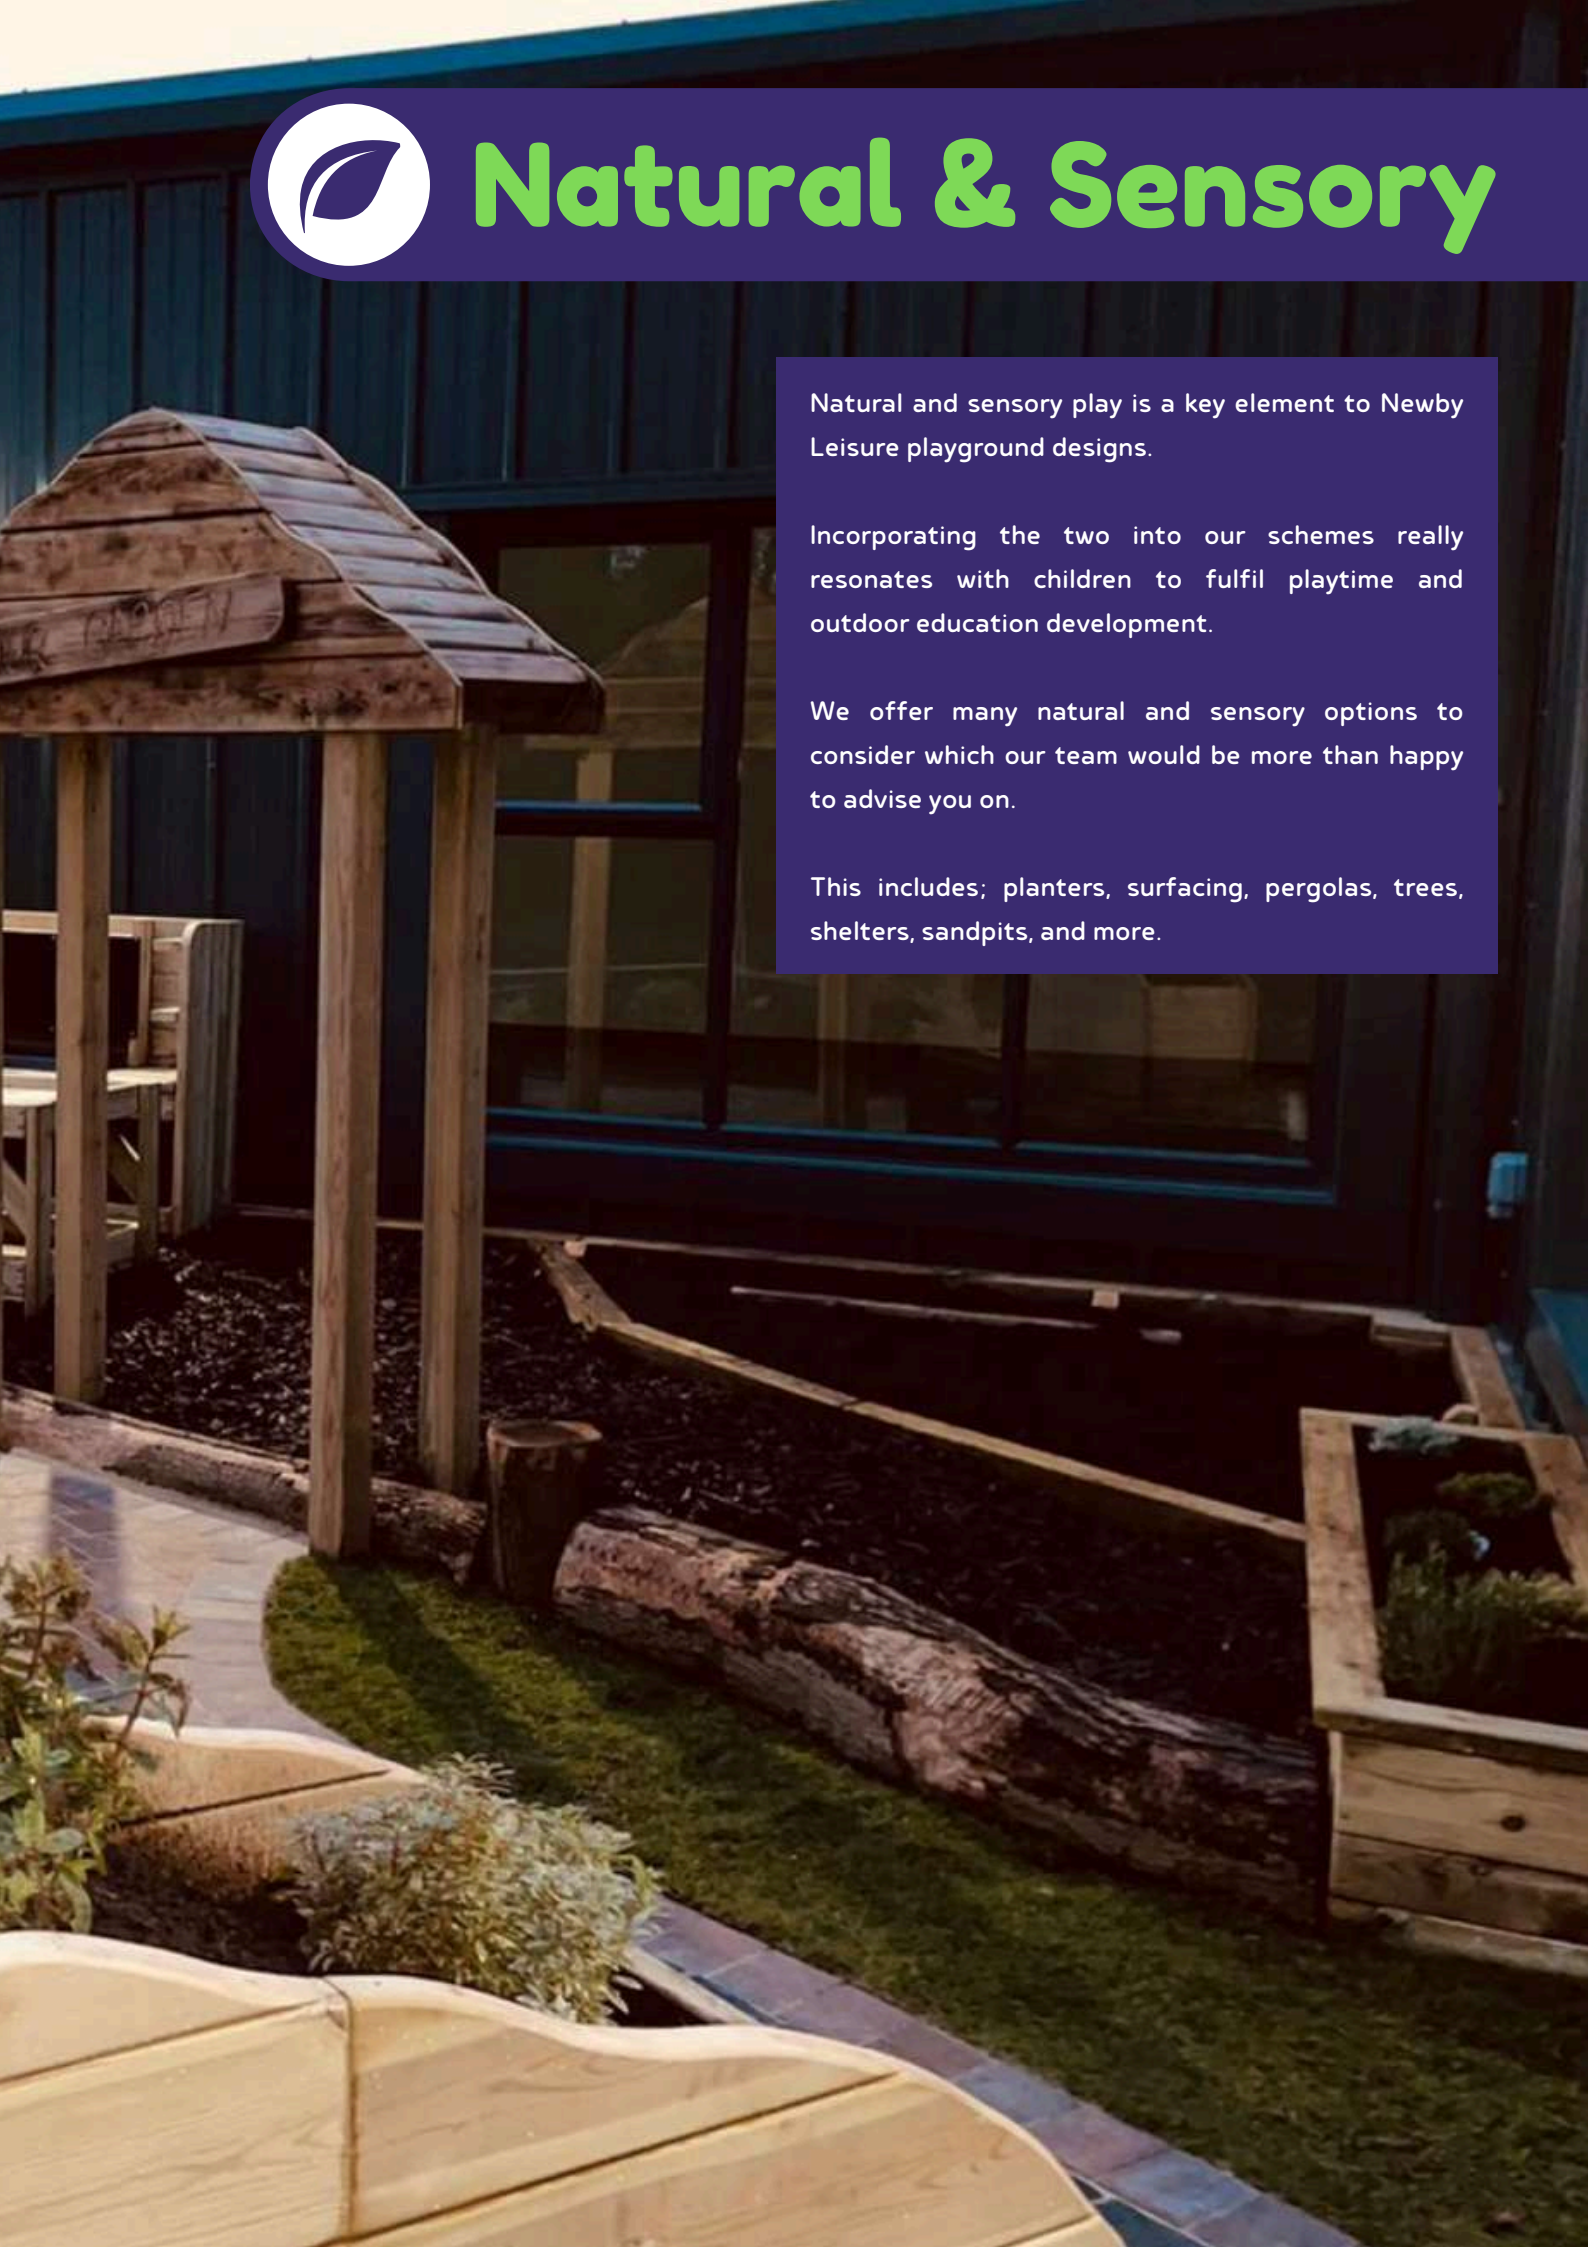

Plus, all physical play equipment is approved by our ROSPA trained inspection team for peace of mind.

Natural & Sensory

Natural and sensory play is a key element to Newby Leisure playground designs.

Incorporating the two into our schemes really resonates with children to fulfil playtime and outdoor education development.

We offer many natural and sensory options to consider which our team would be more than happy to advise you on.

This includes; planters, surfacing, pergolas, trees, shelters, sandpits, and more.

Water Play

Water Play is both enjoyable and educational.

Helping children develop their eye-hand coordination, maths and science concepts, Newby Leisure offers a wide range of water play features for schools and nurseries.

Enhancing social skills and encouraging social cooperation, water play is used all year round by teachers to help develop a child's education.

Our range of water play products ranges from freestanding units with funnels and pipes to bespoke streams and sandpits.

Messy Play

Newby Leisure understand the importance of Messy Play for early years and primary education - it's great for all-around development!

Many studies have shown that messy play is one of the most effective ways for young children to learn and develop physically, mentally, and emotionally.

Messy play encourages children to learn about raw materials and the outdoor environment in an unrestricted and creative way, and we love to encourage that in our outdoor playground projects.

Sand Play

Sand play promotes physical development.

Newby Leisure design and install many different sandpits of various sizes and styles. We have created many wonderful bespoke sandpits at a variety of schools, each with a unique twist.

Children love to play in the sand, especially in large groups. That's why our bespoke options are perfect for school play areas.

Sand play is essential for developing large muscle skills as children dig, pour, sift and scoop.

Nature Areas

School nature areas breathe new life into your playground or outdoor space all year round. Newby Leisure has had the pleasure of installing many beautiful nature areas at schools all across the country and Europe too.

Outside in a natural environment, these areas offer children the chance to socialise and engage with classmates, whilst learning about the environment they play in.

Perfect for incorporating planters, flowers beds, bug hotels, and much more, they finish off an outdoor play area perfectly.

Caves & Streams

Newby Leisure's Caves and Streams are eye-catching and imaginative.

CAVES

Children will engage in these areas for hours to develop their social abilities. An attractive feature, play caves are great to crawl into for reading, resting, and role-play activities. Allow a child's imagination to come to life when they create their own play scenarios and develop social skills.

STREAMS

Our play streams look fantastic in any playground setting. Offering a tranquil area to relax and read, streams also attract children for water play activities too. Designed with longevity in mind, they are brilliant for playtime.

Construction Play

Construction play - it's time to build!

Construction play is all about shaping, building, and manipulating objects to create new and exciting structures. It offers learning opportunities for children of all ages.

It is particularly beneficial for early years because they learn to work towards a goal individually and as a group. Construction play allows them to explore their imagination and execute it in the real world.

Yellow Brick Road, Pump Farm

Case Study

With the surroundings of nature from the farm in the distance, this place to play will definitely encourage further outdoor learning for the children at Yellow Brick Road.

Elements of this design include sensory, sand, water, role play and lots more.

A fun and educational summer lies ahead for the children at this nursery!

Sand Play Unit

Caves

Path of Interest

Wild at Heart Day Nursery

Case Study

We divided this space into three different sections, each one fenced/gated to ensure safety of toddlers and babies at all times.

These areas consist of physical play, construction play and a MUGA.

Timber Tower Unit

Multi-use Games Area

Sand Play Unit

Southmere Primary Academy, Bradford

Case Study

Beginning with a complete blank canvas, before bringing this space to life, there was simply just grass and an old, outdoor classroom in place.

The classroom was removed and then began the incredible transformation!

It was an absolute pleasure to work alongside the wonderful Delta team once again, to turn their dream playground into a reality.

Bespoke Sign

Timber Resources

Outdoor Classroom

Richard Avenue Primary School, Sunderland

Case Study

Natural playground transformation at Richard Avenue Primary School, Sunderland.

The Newby Leisure team transformed this area to incorporate multiple features to enhance outdoor play and education.

The early years playground is now a fun and vibrant area to be used all year round.

Clamber Stack

Physical Play

Playhouses

Limes Play & Learn, Louth

Limes Play and Learn is the proud home of all things fun, adventure, and education!

Newby Leisure had the pleasure of designing and completing this magnificent playground project. We had so much fun working alongside the wonderful team at Limes, coming up with the perfect design for the space.

This free-flowing space is inclusive of a bespoke, enchanted tree house with aspects of physical play, sensory play, and role play.

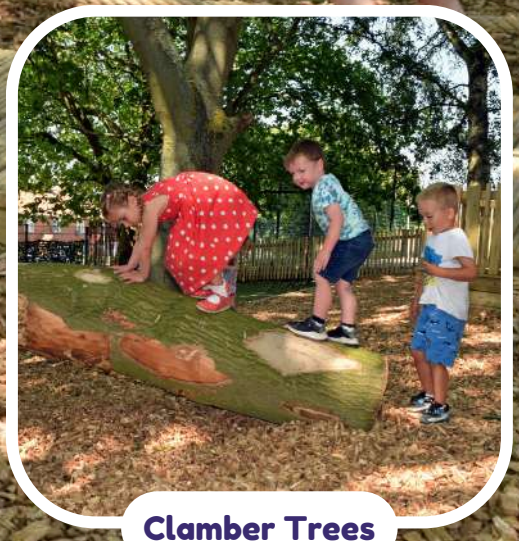

Case Study

Bridges

Treehouse

Clamber Trees

Regent Farm First School, Newcastle

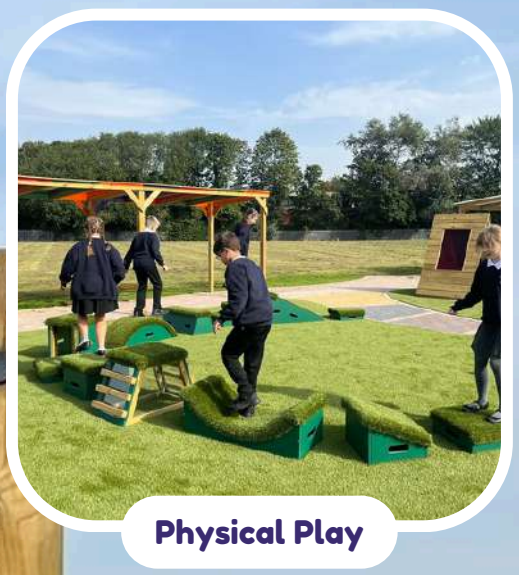

Case Study

Regent Farm First School is full of adventure, sensory and outdoor play!

With splashes of colour everywhere you turn, this playground is guaranteed to brighten up your day.

Aspects of physical play, role play, messy play and more; there is not much that this playground doesn't have.

Physical Play

Teepees

Seating Area

Wild at Heart Day Nursery, Driffield

Case Study

An exciting space for early years toddlers and children to engage in outdoor play all day long!

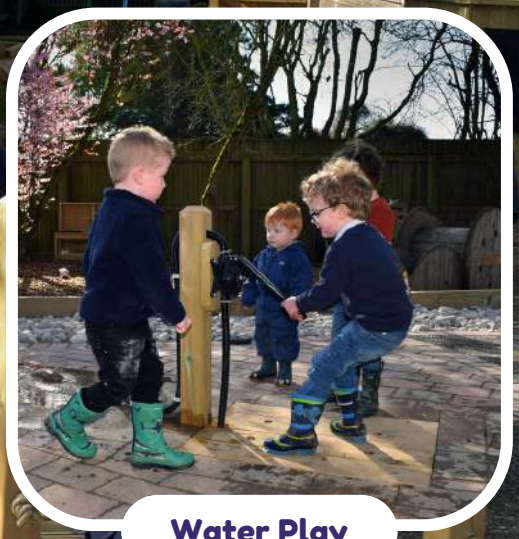

Newby Leisure have completely transformed this outdoor space into an educational garden, at Wild at Heart Day Nursery.

After receiving such positive feedback from the school, it seems as though the pupils wasted no time enjoying their natural playground!

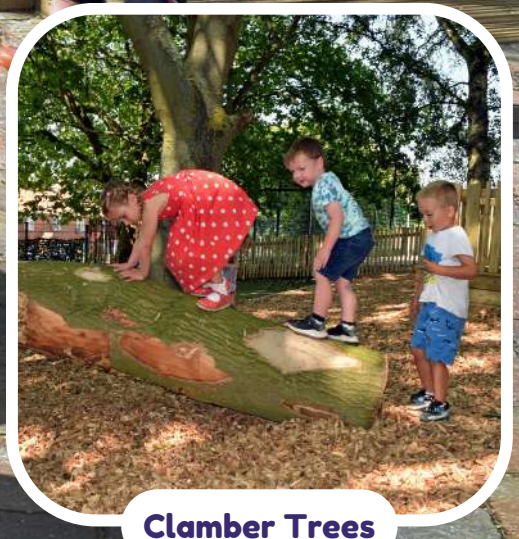

Construction Play

Water Play

Clamber Trees

Wygate Park Academy, Spalding

Case Study

Newby Leisure has redesigned and installed not one, but two outdoor play environments at this wonderful primary school.

With a couple of show stopping centre pieces, and multiple freestanding timber resources, there is plenty for the children to revel in at play time!

Working alongside the team at Wygate and Voyage Education, the main aim of the game was to encourage further outdoor learning.

Playhouses

Classroom

Sand Play

Yellow Brick Road Day Care

Case Study

An absolutely unbelievable transformation! We cannot believe the difference made to this outdoor learning space.

To start with, this area was completely worn and in need of a glow up.

After meeting with the wonderful team at Yellow Brick Road, we took their ideas on board and brought their vision to life.

Woodcutters Cottage

Seating Area

Pontoon

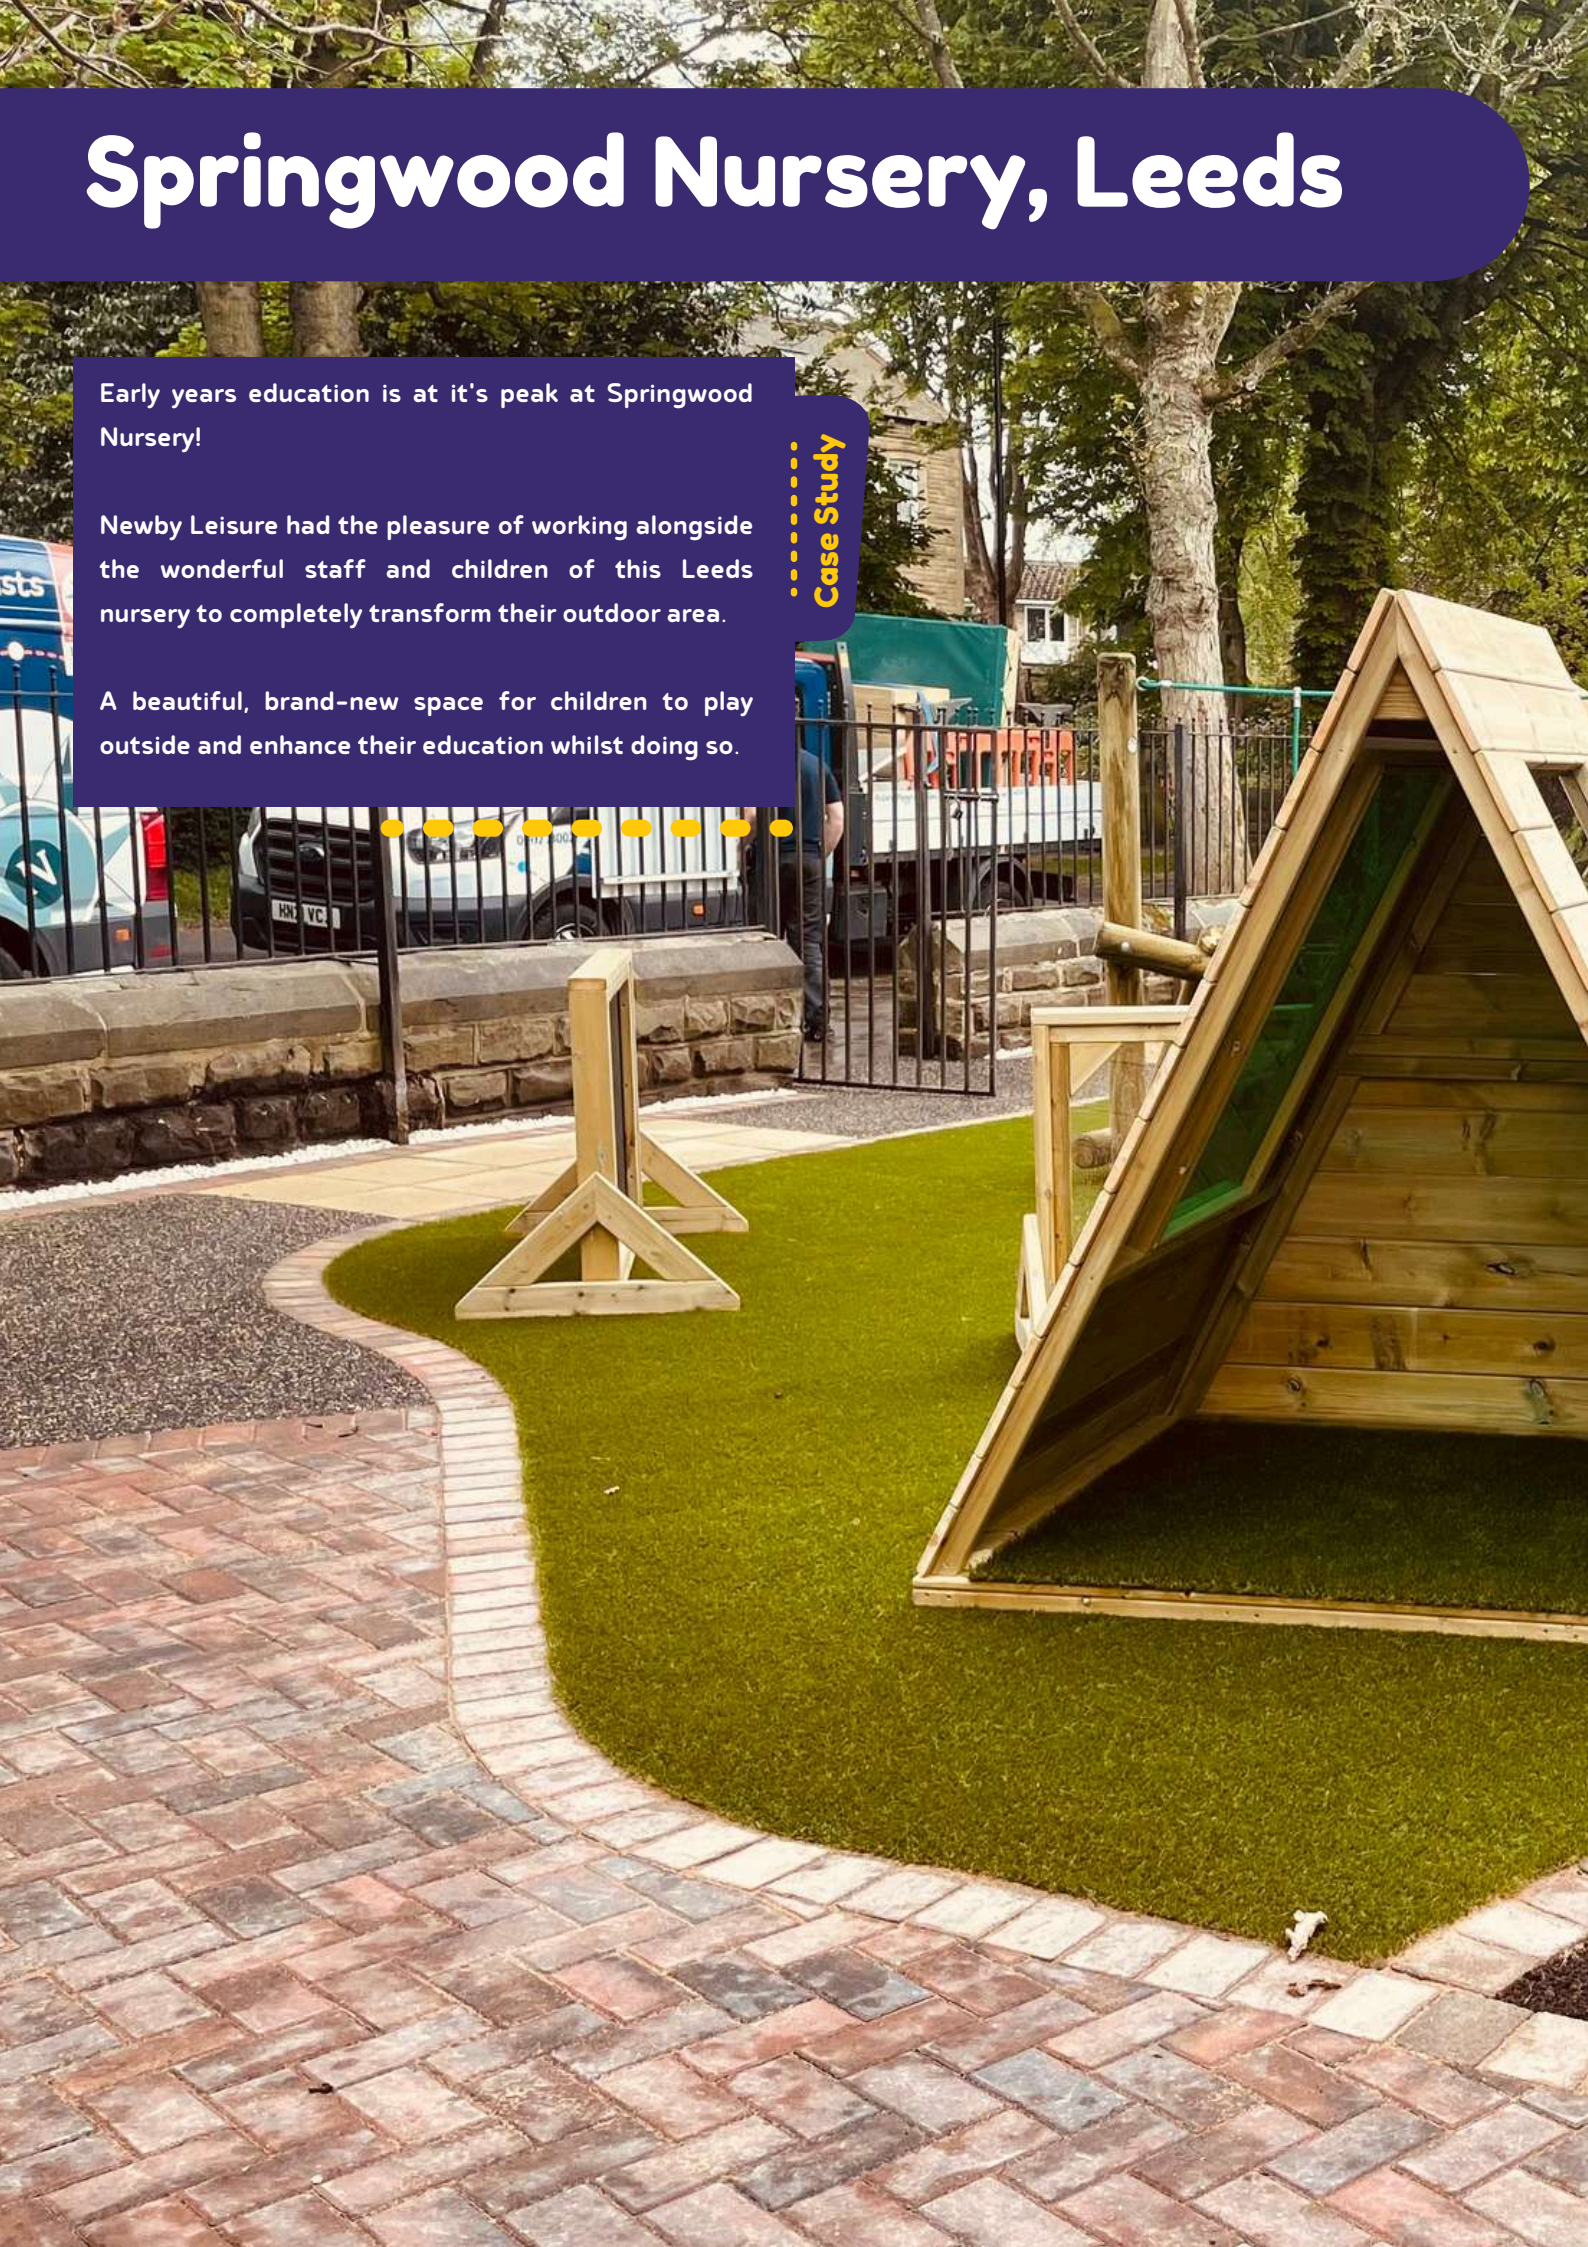

Springwood Nursery, Leeds

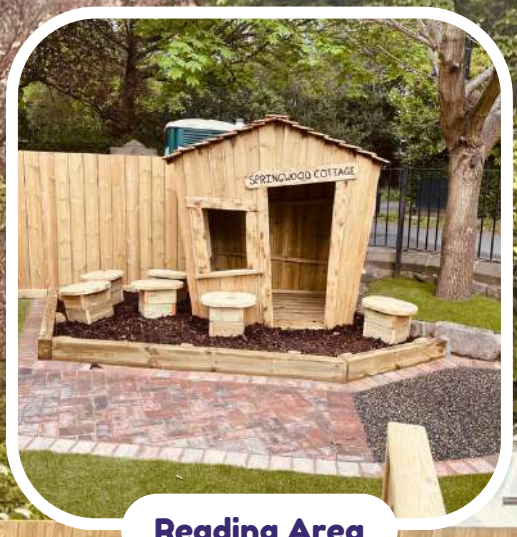

Case Study

Early years education is at it's peak at Springwood Nursery!

Newby Leisure had the pleasure of working alongside the wonderful staff and children of this Leeds nursery to completely transform their outdoor area.

A beautiful, brand-new space for children to play outside and enhance their education whilst doing so.

Reading Area

Paving

Clamber Stack

Greengates Primary, Bradford

Case Study

Before the renovation, this educational environment was definitely in need of a glow up. We removed pretty much everything in sight and replaced it all with newness, with the exception of a few existing resources.

Within this space, we provided multiple surfacing styles to suit each category of play.

Not only are these surfacing options suitable for each category of play, but they also add different colours and textures to the playground.

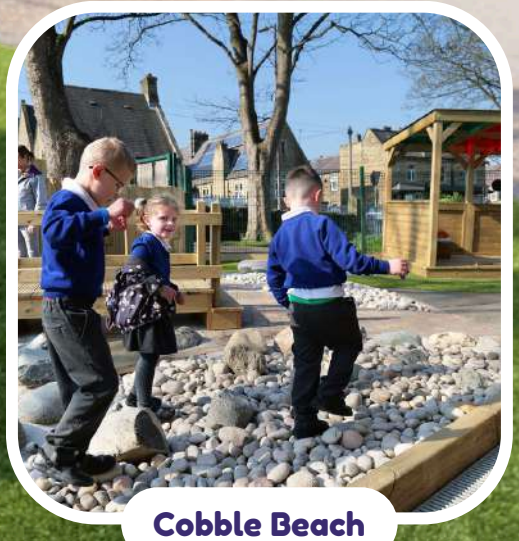

Timber Bridge

Water Play

Cobble Beach

The Parks Academy

Case Study

Packed with adventure and education! This playground design consists of two areas. The main one including multiple freestanding resources to keep children entertained all year round. The other space being brought to life with all new surfacing; both artificial grass and new pour.

The range of resources include elements of messy play, water play, construction play, and we also added storage units to help the children maintain a tidy playground.

Not forgetting to mention the storytelling corner, ideal for multiple children to get creative and build on their teamwork skills whilst doing so.

Nature Play

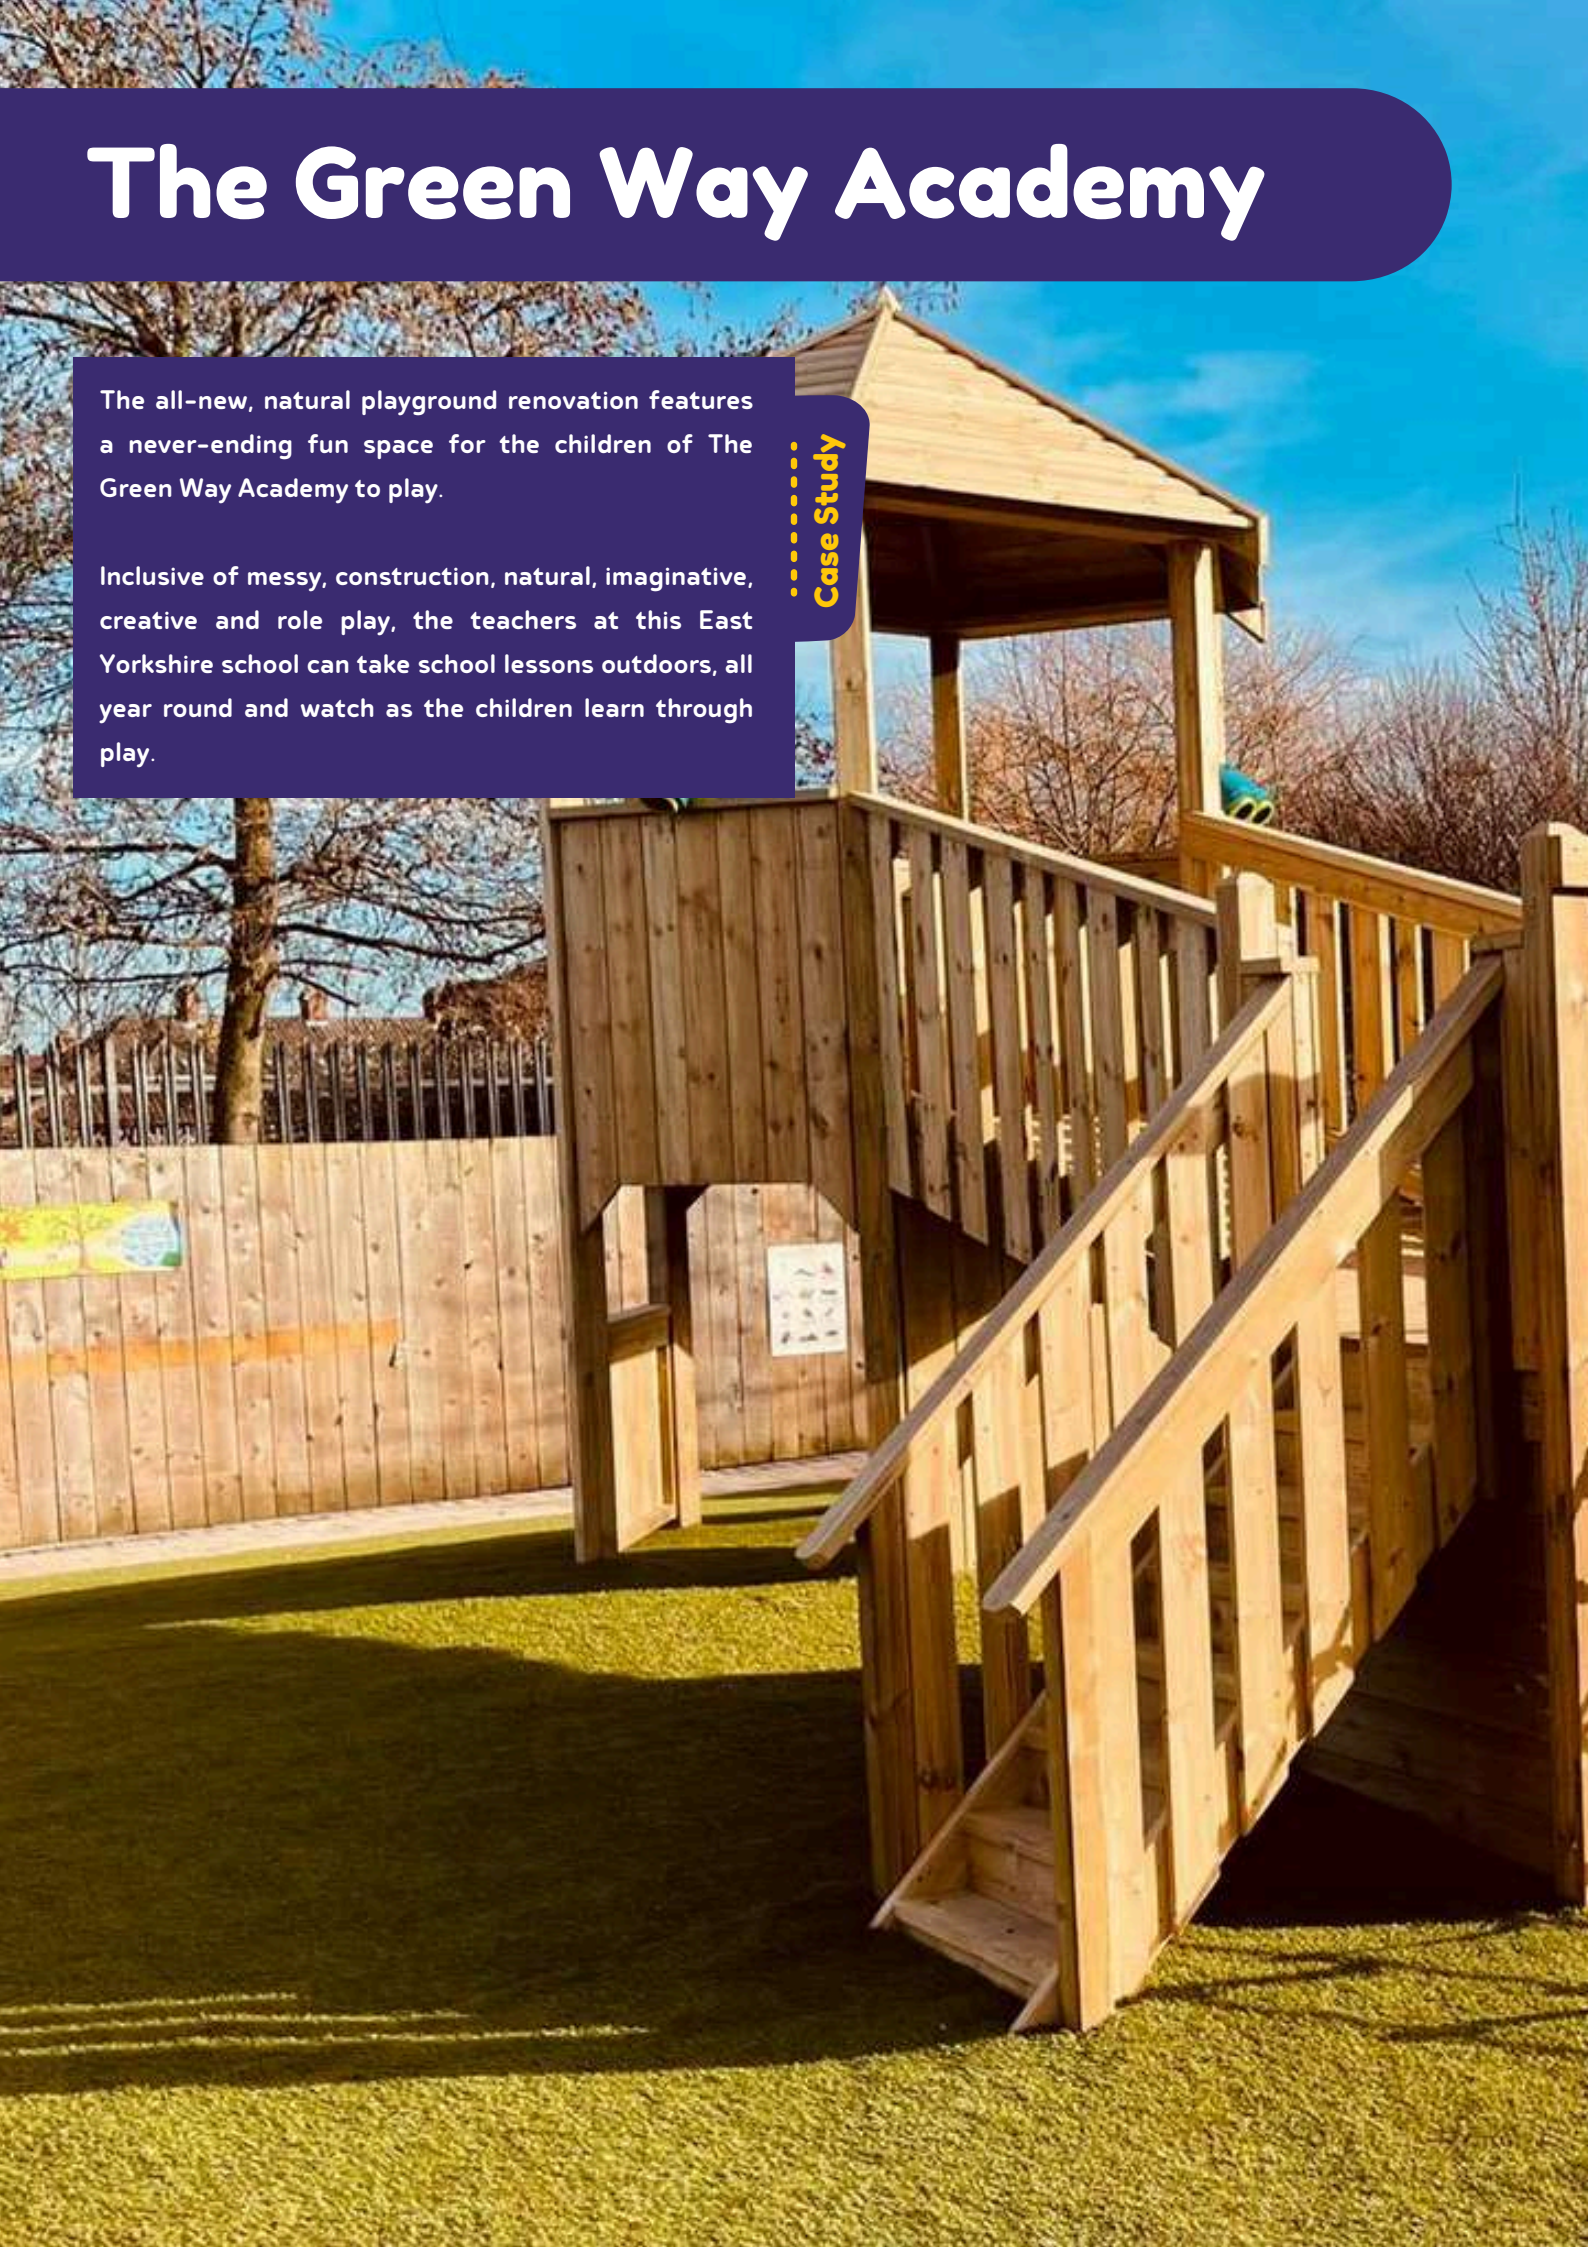

Clamber Stack

Playhouses

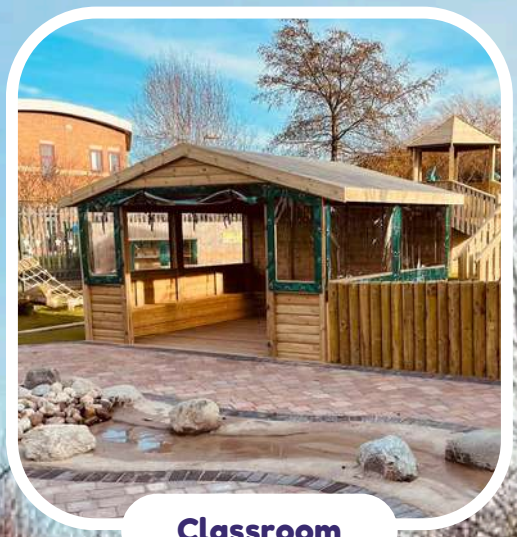

The Green Way Academy

Case Study

The all-new, natural playground renovation features a never-ending fun space for the children of The Green Way Academy to play.

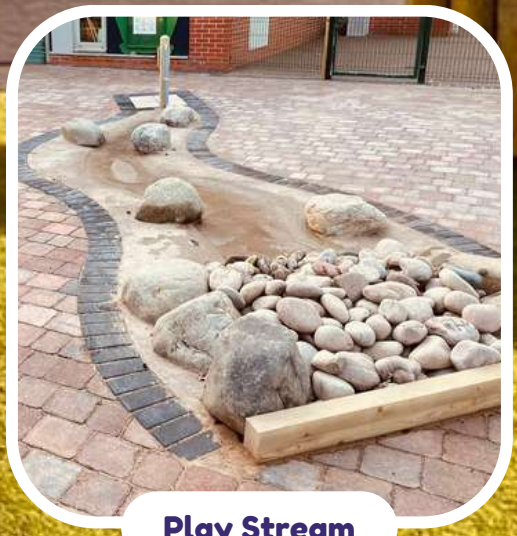

Inclusive of messy, construction, natural, imaginative, creative and role play, the teachers at this East Yorkshire school can take school lessons outdoors, all year round and watch as the children learn through play.

Classroom

Messy Play

Play Stream

Laude San Pedro International College

Case Study

Natural play is at the heart of Laude San Pedro International College, Malaga with this fabulous playground design.

A free-flowing space, the site is a safe play zone for early years and primary education. By incorporating elements of play to develop upper and lower body strength, fine motor skills, and agility our team covered lots of educational aspects which allows children to enjoy the benefits of being outdoors whilst learning through play.

Taking into consideration the climate in Malaga, our treated timbers were carefully selected to offer maximum robustness and sustainability.

Seating Area

Sensory Fence

Beach Huts

Kids Planet, Chorley

Case Study

A natural playground design for early years education, inclusive of a bespoke, timber bridge, water play stream, sand play, a fallen clamber tree and lots more.

From a complete blank canvas to a magnificent play zone, the kids of Kids Planet will spend hours of fun in their natural, creative play environment!

Rope Bridge

Mud Kitchen

Water Play Stream

Shelters & Storage

OUTDOOR CLASSROOMS

An outdoor classroom provides a permanent space for lessons and role-playing activities. Outdoor lessons can be fulfilled without leaving school grounds and can be integrated into the school curriculum any time of year.

All our classrooms are manufactured to the highest standard, in-house, and can be completed with seating and detachable, heavy-duty PVC covers.

Newby Leisure design and install outdoor classrooms in various shapes and sizes, according to your budget and needs.

Large Apex Shelter

Coloured Corner Shelter

SHEDS & STORAGE

Newby Leisure can design supply and install any type and size of Shed or Storage/Play structure you may require.

Surfacing & Paving

Specialists in all types of safety surfaces, Newby Leisure offer rubber wet pour, safagrass & artificial grass.

We supply and install hard surfaces, such as tarmac, sports surfaces- either sand or filled 3G, paths of interest, concrete slabs, block paving, ground works and drainage.

Token Gesture

Look out for the 10% off token with every Newby Leisure Limited order. You will find the token placed in your order upon delivery. Scan the QR code to visit our website and enter the unique code to receive 10% off your next order. Happy shopping!

Delivery

The average lead time for delivery is 3-4 weeks from order being placed. All products include delivery and will be courtesy of a kerb side drop, UK Mainland. However, some regions may be subject to a delivery charge.

For delivery to other destinations including Highlands, Islands and Northern Ireland, please ask our sales team for a quotation.

If you have any special delivery requirements, please let us know when placing your order.

Failed or Refused Delivery

In the event a legitimate order is refused by the customer or premises are inaccessible, a redelivery charge will apply.

Prices

We endeavour to hold Newby Leisure Limited product prices, although fluctuations may occur in which case customers will be informed. All prices are net and exclusive of VAT.

Product Descriptions

Newby Leisure Ltd take every care to ensure all illustrations and descriptions within this catalogue are accurate, however, we retain the right to change specifications or improve products.

Returns

All goods are made to order. We do not supply on a sale or return basis. In the event of an item being deemed unsuitable or ordered in error, please call our team for authorisation and to arrange a return. Charges will apply, your statutory rights will not be affected.

Simply the best

From the onset our experience of Newby Leisure was fantastic. The process from design through to completion was well planned, communicated effectively and implemented perfectly by their incredible ground team. The finished outdoor area exceeded my expectations and the team were a pleasure to work with. I would always recommend Newby for either outdoor equipment or a full garden refurb.

Newby Leisure offer an excellent...

Newby Leisure offer an excellent pre-start service, the lads on site were great and both friendly and professional. The after-service care has also been brilliant so far. We would highly recommend them based on both service and cost. The project was put out to tender and Newby we're easily the best value for money.

Outstanding service

I cannot praise the Newby Leisure team enough. At every point of the process, they demonstrated professionalism, efficiency and reliability. Communication was excellent throughout and any stress was taken off school staff. The four members of the team who installed our new EYFS area worked through wind, rain and snow to keep on track with the project and left the surrounding area clean and tidy. I will be contacting Newby Leisure again to quote for future projects and would highly recommend them.

Newby Leisure Outdoor Skip

This was purchased by the school my children attend, and as it is quite heavy (approximately 100kg assembled and loaded) the teachers asked whether it would be possible to fit castor wheels to to make it easier to move. I was pleasantly surprised to find it was so well built the understructure didn't require reinforcing, meaning it was relatively easy for me to fit braked castor wheels (I fitted 4 swivel/braked castors rated at 30kg each and this was adequate). This made what is quite a heavy piece of equipment relatively easy to move. Erin and her team couldn't have been more approachable, and were very helpful answering my questions. I was expecting it to be a standard flat pack design, but it was quite the opposite, a solid/well built piece of play equipment designed to last.

Such a brilliant company

Such a brilliant company! We received the Team Building table (fully built so no faffing with a flat pack!) It has been the best addition to our garden resources. So sturdy and well made. Delivery was quick and customer services are always helpful and friendly. My 5 and 8 year olds have played with the table all summer, making potions, exploring sand and water, getting messy with foaming soap. The opportunities for play are endless with this table! Highly recommend.

We had a bespoke fence with coloured...

We had a bespoke fence with coloured Perspex windows to enclose our garden. The team were wonderful from start to finish and helped us realise our goal. The timescale for construction was swift and any adaptations due to site were resolved quickly. We would recommend Newby hands down!

Excellent outdoor items

Our outdoor EYFS area has many Newby Leisure items and the children adore them. They are robust, good quality and well designed. Any issues and questions are promptly addressed by the team who deliver amazing customer services. We have a mini bug hotel, mud kitchen, water chutes, balance scales, partition play centre, play lodges and story telling chairs. Together, they make a wonderful outdoor area for the children to explore and play in. I highly recommend Newby Leisure to everyone!

EYFS landscaping/garden

Newby leisure took on board our ideas and designs for our dream EYFS garden and made them come true. Our garden looks amazing and the quality of the resources, products and materials are extremely high end. Not only were the team really friendly but also helpful in anything we asked. Our children absolutely adore our outdoor area and I couldn't have asked for more as an EYFS lead and teacher. The resources are just incredible. We will be using new y leisure products and services again in the future should we need them. A huge thank you to the whole team.
